

December 29, 1988
Page 2

I think the reason I am reciting these facts is obvious: I doubt if many major market FM radio stations have the staff and requisite engineering expertise to fully respond to the number of complaints included in your last letter within the 45 days provided in your letter. Especially since the volume of complaints is apparently increasing, and the complaints are wholly generated by broadsides that are left on peoples doorsteps, in stores, and in other areas far outside the station's blanketing interference contour. I have advised the station's personnel to respond to the complaints noted, and to address them as speedily and professionally as possible, and to keep full and complete records of their contacts and the steps to taken to resolve the complaints.

There is, however, a limit to station resources, especially since many of the complaints are being generated by these broadsides themselves, and a large percentage are prompted by the interference to Channel 6 reception, or are boosters, which the station cannot correct. The seemingly Herculean task of responding to these complaints within the 45 day period noted in your letter is complicated by a number of factors, including the fact that not less than 71 of the complaints received include a name and an address, but no telephone number for the complainant. Resolving these complaints will require additional research to obtain the complainant's telephone number, or resort to door-to-door initial contacts, with the wasted effort and time that such contacts entail.

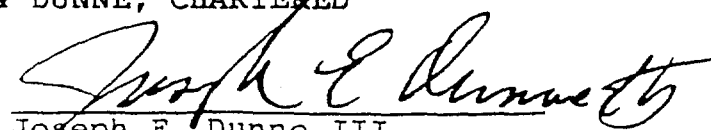

I appreciate your courtesy and consideration to me personally, and to the station personnel with whom you have communicated, and I beg, on their behalf, your continued patience as the neophyte and largely volunteer staff of this struggling noncommercial station attempts to resolve these problems.

As always, Mrs. Raines, I hope you will give me a call if you have any questions or need any further information concerning this matter.

Very truly yours,

MAY & DUNNE, CHARTERED

FEDERAL COMMUNICATIONS COMMISSION

Docket No. 92-122 - 11/18/92 KOKS 11

Presented by MR DUNNE - KOKS

IDENTIFIED ✓ 11/18/92

Disposition: RECEIVED ✓ 11/18/92

Reporter BARBARA LUKA

Date 12/22/92 #11

we appreciate your kind understanding and patience, we're doing all we can to provide the Federal Communications Commission with correct information about the interference KOKS 89.5 on the HI dial is causing in this area. We feel you should know the facts. For months we've been trying to get something done about our interference problems caused by KOKS. Over 1000 petitions have been sent to the FCC and our Congressman, Bill Emerson. In March our case was moved from the FCC office in Kansas City to the FCC, Mass Media Bureau FM Branch, Washington D. C.

Section 73.317 of the Commissions Rules states, in pertinent part, "Should harmful interference to other authorized stations occur the licensee shall correct the problem promptly or cease operation." Section 73.318 of the Commissions Rules states, in pertinent part, "That licensees must satisfy all complaints of blanketing interference which are received by the station during a one year period. This period begins with the commencement of program tests" September 27, 1988. "Resolution of complaints shall be at no cost to the complainant." [The FCC states channel 6 is not an authorized station for this area.]

"For those living within the blanketing contour of the FM station, which is a 2.45 mile radius around the tower, will have their interference problems alleviated at the expense, monetary and labor, of the FM station per FCC rules and regulations." This means for those living within the 2.45 mile radius, "the station must resolve, at its own expense, all legitimate complaints of non-exempted blanketing interference that occurs during the first year after commencement of operation. The station must bear the full financial responsibility when resolving the interference." The FCC exempts people using boosters or high gain antenna towers. But, they are still responsible to give you enough technical assistance to solve your problem. The FCC is mainly concerned with our TV's and radios. Portable units are exempt, those using batteries. For those living outside the 2.45 mile blanketing contour, "the Commission has always required the station to address the problem with enough technical assistance to help the complainant to identify and correct any interference." The station should have told you to purchase a specific item to correct your interference. The item should work. If the item does not work the station has not fulfilled its responsibility. Remember, if you're inside the 2.45 mile blanketing contour the station bears the full financial responsibility.

The FCC is receiving information from KOKS that some cases have been closed. KOKS is reporting they have solved the interference problems in some cases. We contacted some of these people who signed petitions and their cases were closed. Many stated their case has not been solved, they're currently experiencing interference caused by KOKS.

The FCC in Washington gave KOKS a final 45 day period beginning March 29, 1989 and ending May 13, 1989 to deal with our complaints and turn in a detailed report. If you feel that they have solved your problems and you are satisfied, you don't need to do anything. On the other hand, if you feel that you still have a problem, you need to fill out the attached petition so that we can let the FCC know how KOKS has taken care of their responsibilities.--We are delivering these petitions only to those living inside the blanketing area, those that the station is financially responsible for. If you have friends or family who live outside the blanketing area and they feel their needs have not been met, you may give them the enclosed address to send their complaints to. We are not able to cover the entire county again.

KOKS stated on the air that they reduced their power to 50,000 or 55,000 watts in late May because of a fire on the tower caused by lightening. KOKS also stated on the air that they would resume their 100,000 watts as soon as the repair is made. (If your interference problem has improved recently, it is probably because of the reduction of power. Evidently this is a temporary situation.) The station is currently shutting off at midnight and coming on at 5:00 a.m. The station hopes to resume 24 hour broadcasting by October.

We know that everyone is tired of signing petitions and some people have just not wanted to get involved. But it is important that we get something done before this one year period runs out. Whether you have or have not signed a petition in the past, this is your chance to voice your complaint. After September 27, 1989 the radio station will not be under full financial obligation to satisfy blanketing complaints. After this date you will be responsible for correcting the interference problem.

Keep this newsletter, mail the attached petition to us as soon as possible. The FCC needs to know if your problem is solved. We will mail your petition to the FCC. They're waiting for your results. We have left plenty of space on the petition for your comments; if you feel you need to say more, feel free to enclose a letter with your petition. We will as we have in the past, keep all originals and send copies of your petitions and letters by certified mail to the FCC.

Thank you for your help in solving these problems and for the community spirit that has been shown.

MAIL PETITION TO: Doris Smith
Rt. 6 Box 260
Poplar Bluff, MO. 63901

Sincerely,
Doris Smith and Jean Hillis

ONE HOUR AND FORTY MINUTES PER WEEK FOR A TOTAL OF TWENTY ONE HOURS AND FORTY MINUTES FOR THE QUARTER OF CHURCH & COMMUNITY NEWS. PUBLIC SERVICES ANNOUNCEMENTS FOR DIFFERENT ORGANIZATIONS. NEWS IS BROADCAST ON THE HOUR FOR FIVE MINUTES.

WEATHER AND TEMPERATURE IS GIVEN ON THE HALF HOUR IF THERE IS A STORM WATCH , THEN IT IS GIVEN EVERY TEN MINUTES UNTIL THE STORM WATCH IS OVER.

CHURCH & COMMUNITY NEWS IS AIRED AT 8:15 AM. AND 5:15 PM. SOCIAL SECURITY QUESTIONS & ANSWERS ARE AIRED FOR ONE HOUR AND FIVE MINUTES FOR THE QUARTER AND THEN SOCIAL SECURITY PROBLEMS ARE AIRED AS TWENTY AND THIRTY SECOND SPOTS THROUGHOUT THE QUARTER. A LIST OF PROBLEMS AIRED IS ATTACHED.

7-11-1990- AIRED AT 1:05-2:30PM., POINT OF VIEW WITH TOM JIPPING, TOPIC SAVE AMERICA'S YOUTH, TALKING ABOUT THINGS THAT WE CAN DO TO HELP OUR YOUTH TO STAY IN SCHOOL AND HOPEFULLY TO KEEP THEM FROM THE DRUG SCENE THAT HAS DESTROYED SO MANY YOUNG PEOPLE IN OUR CITY AND COUNTRY, PROVIDE THINGS THAT ARE GOOD AND HEALTHY FOR THE YOUNG PEOPLE SUCH AS SPORTS, MUSIC, PLAYS . PLAN THESE THINGS WITH YOUNG PEOPLE IN MIND LET THEM PLAY A BIG PART WITH ONLY ADULT SUPERVISION SO THAT IT WILL HELP KEEP THE YOUNG PEOPLE ON THE RIGHT TRACK, WE BELIEVE IF THE CITY OFFICIALS AND THE PARENTS WORK TOGETHER WE CAN SEE MANY OF OUR PROBLEMS WITH THE YOUTH SOLVED.

7-23-1990, AIRED AT 6:05-6:10PM.
SOCIAL SECURITY, TOPIC, DISABILITY INSURANCE, LETTING PEOPLE KNOW THAT THERE IS MORE TO SOCIAL SECURITY THAN JUST RETIREMENT BENEFITS, THERE IS DISABILITY BENEFITS ALSO, MONTHLY BENEFITS TO HELP WITH EVERYDAY EXPENSES IF YOU ARE UNABLE TO WORK FOR A LONG PERIOD OF TIME BECAUSE OF AN ILLNESS OR INJURY, THIS WILL SOLVE THE PROBLEM OF MANY WHO ARE SICK OR HAVE BEEN INJURED AND WERE NOT AWARE OF THIS HELP THAT IS AVAILABLE FOR THEM.
